

## **Description**

More than 90 million Americans spend their days on the job. They are a valuable national resource. However, until 1970, no uniform or comprehensive provisions existed for their protection against workplace safety and health hazards. This training session will look at why OSHA was created, what areas it covers, and what protections it provides to the worker.

## **Objectives**

- Review OSH Act
- Learn the inspection process
- Discuss employer responsibilities and rights
- Discuss employee responsibilities and rights

## **Audience**

Employees in the workplace should be aware of their rights and responsibilities under OSHA. However, it is important that supervisors and managers have a good understanding of the OSHA regulations in order to answer employee questions and to help the employer stay in compliance.

## **Requirements**

29 CFR 1903 – Inspections, Citations and Proposed Penalties
